3. Steps to Generate Meal Tokens

Dashboard Overview : Once logged in, you will see the main dashboard. This screen shows the live status for the current day.

TOTAL RECEIPTS: Shows how many times you have printed tokens today.

TOTAL DEVOTEES: Shows the total number of people served today.

1. After Login Navigate to the Meal Token System dashboard -> Default Current date should display
2. Enter the Number of Devotees.
3. Click on Generate & Print button
4. After Generate token you can logout of the system

The screenshot shows the 'Meal Token System' dashboard. At the top right, there is a user profile 'HI, AVTUSER' with a dropdown arrow and a 'Logout' button. Below this, a red arrow points to a circled '4'. The dashboard features two summary cards: 'TOTAL RECEIPTS' with a value of '5' and 'TOTAL DEVOTEES' with a value of '79'. The main section is titled 'Issue New Tokens' and contains a date field 'Date : 17 Jun 2026' (annotated with a red arrow and circled '1'), a 'NUMBER OF DEVOTEES' input field with the value '10' (annotated with a red arrow and circled '2'), and a 'GENERATE & PRINT' button (annotated with a red arrow and circled '3').
